

MINJET

Balcony Energy Storage – Jet Vols

Keep more solar energy for home usage

2kWh battery pack

0-800W adjustable output at 50W step, precise control

Intelligent

Automatic: Fully automatic power control with smart meter connection

Night/Day Timer: Assisted hourly power configuration

Outdoor Usage

IP65 protection against water and dust

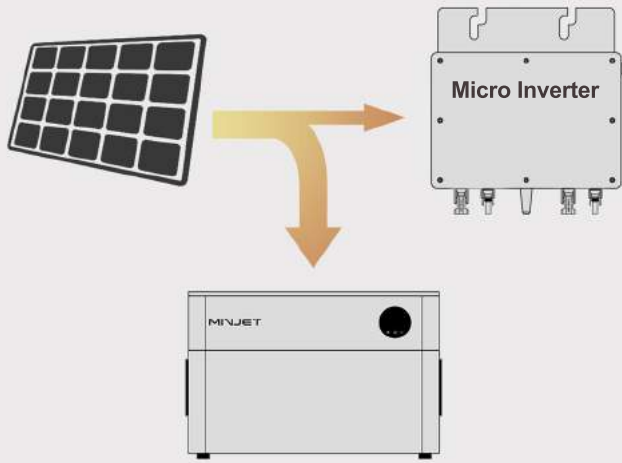

Works down to -10°C

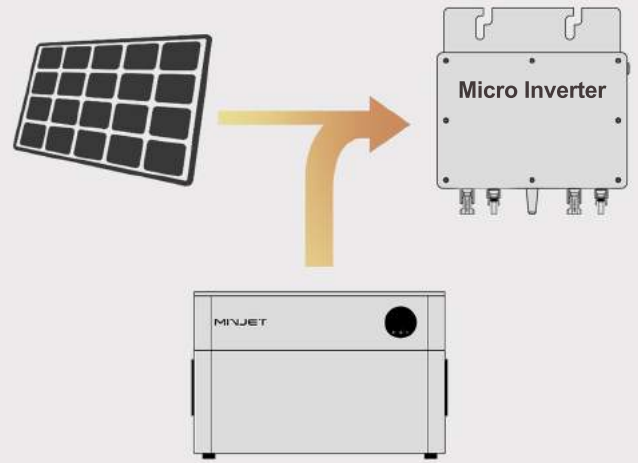

Compatible with 99% of micro-inverters on the market

Hypontech, Envertech, Deye, AP systems, NEP, Hoymiles, OSDA, etc

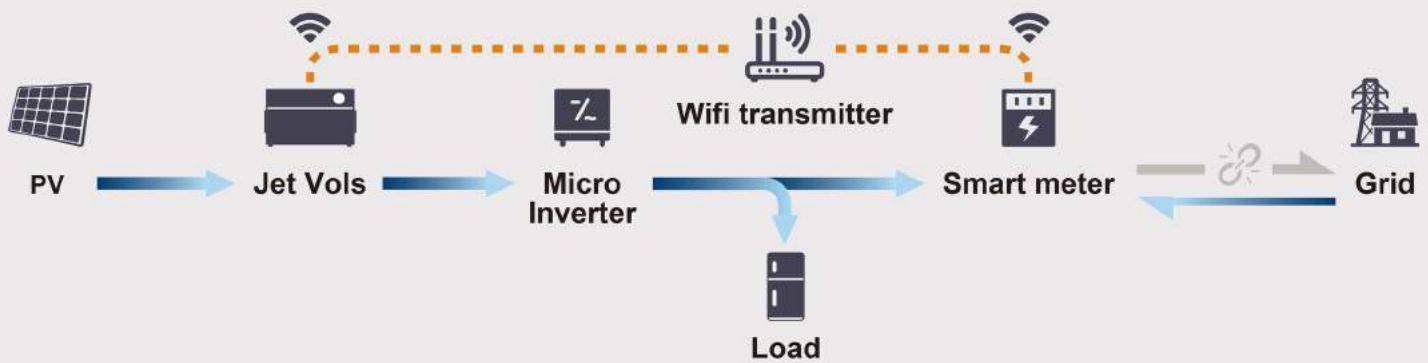

When nobody is home

When you are home

Together with a smart meter, automatically adjust the output power

Specification

Model	MH7A-48
Energy	2016 Wh
Nominal voltage	48 V
Max discharge current per port	20 A
PV input ports (MPPT)	2
Max PV input power	1200 W
PV input voltage range	11V-60 V
Round-Trip Efficiency	≥95%
Enclosure Protection	IP65
Operating Temperature	-10°C~45°C
Dimensions (W*H*D)	371*234*285 mm
Weight	27 kg
Communication	WiFi/Bluetooth
Display	LCD
Certificate	CE, UN38.3, TUV, IEC62619 EMC, RED, RoHS2.0

APP

IOS

Android
